

In reference to the LPFM issue, please know that our local station, K-Love radio is a huge benefit to this community. It is the only Christian family radio station available to this population. Where is our free speech as Christian's? It is listener-supported, not public agency funded.

We need this station as a safe, clean airwave zone. Our market is saturated with every other type of station.

If this station, by displacement from an LPFM, were to be discontinued, our community would be without a resource that we desperately need.

PLEASE DON'T LET US (the families of America) DOWN AGAIN, i.e. Super Bowl fiasco! We need CLEAN AIRWAVES!! Be OUR Voice and protect OUR freedoms.

Thank you for allowing me to comment on this issue.
